

Today's Schedule

After login, the first screen will be **Today's Schedule** which displays the upcoming classes to attend.

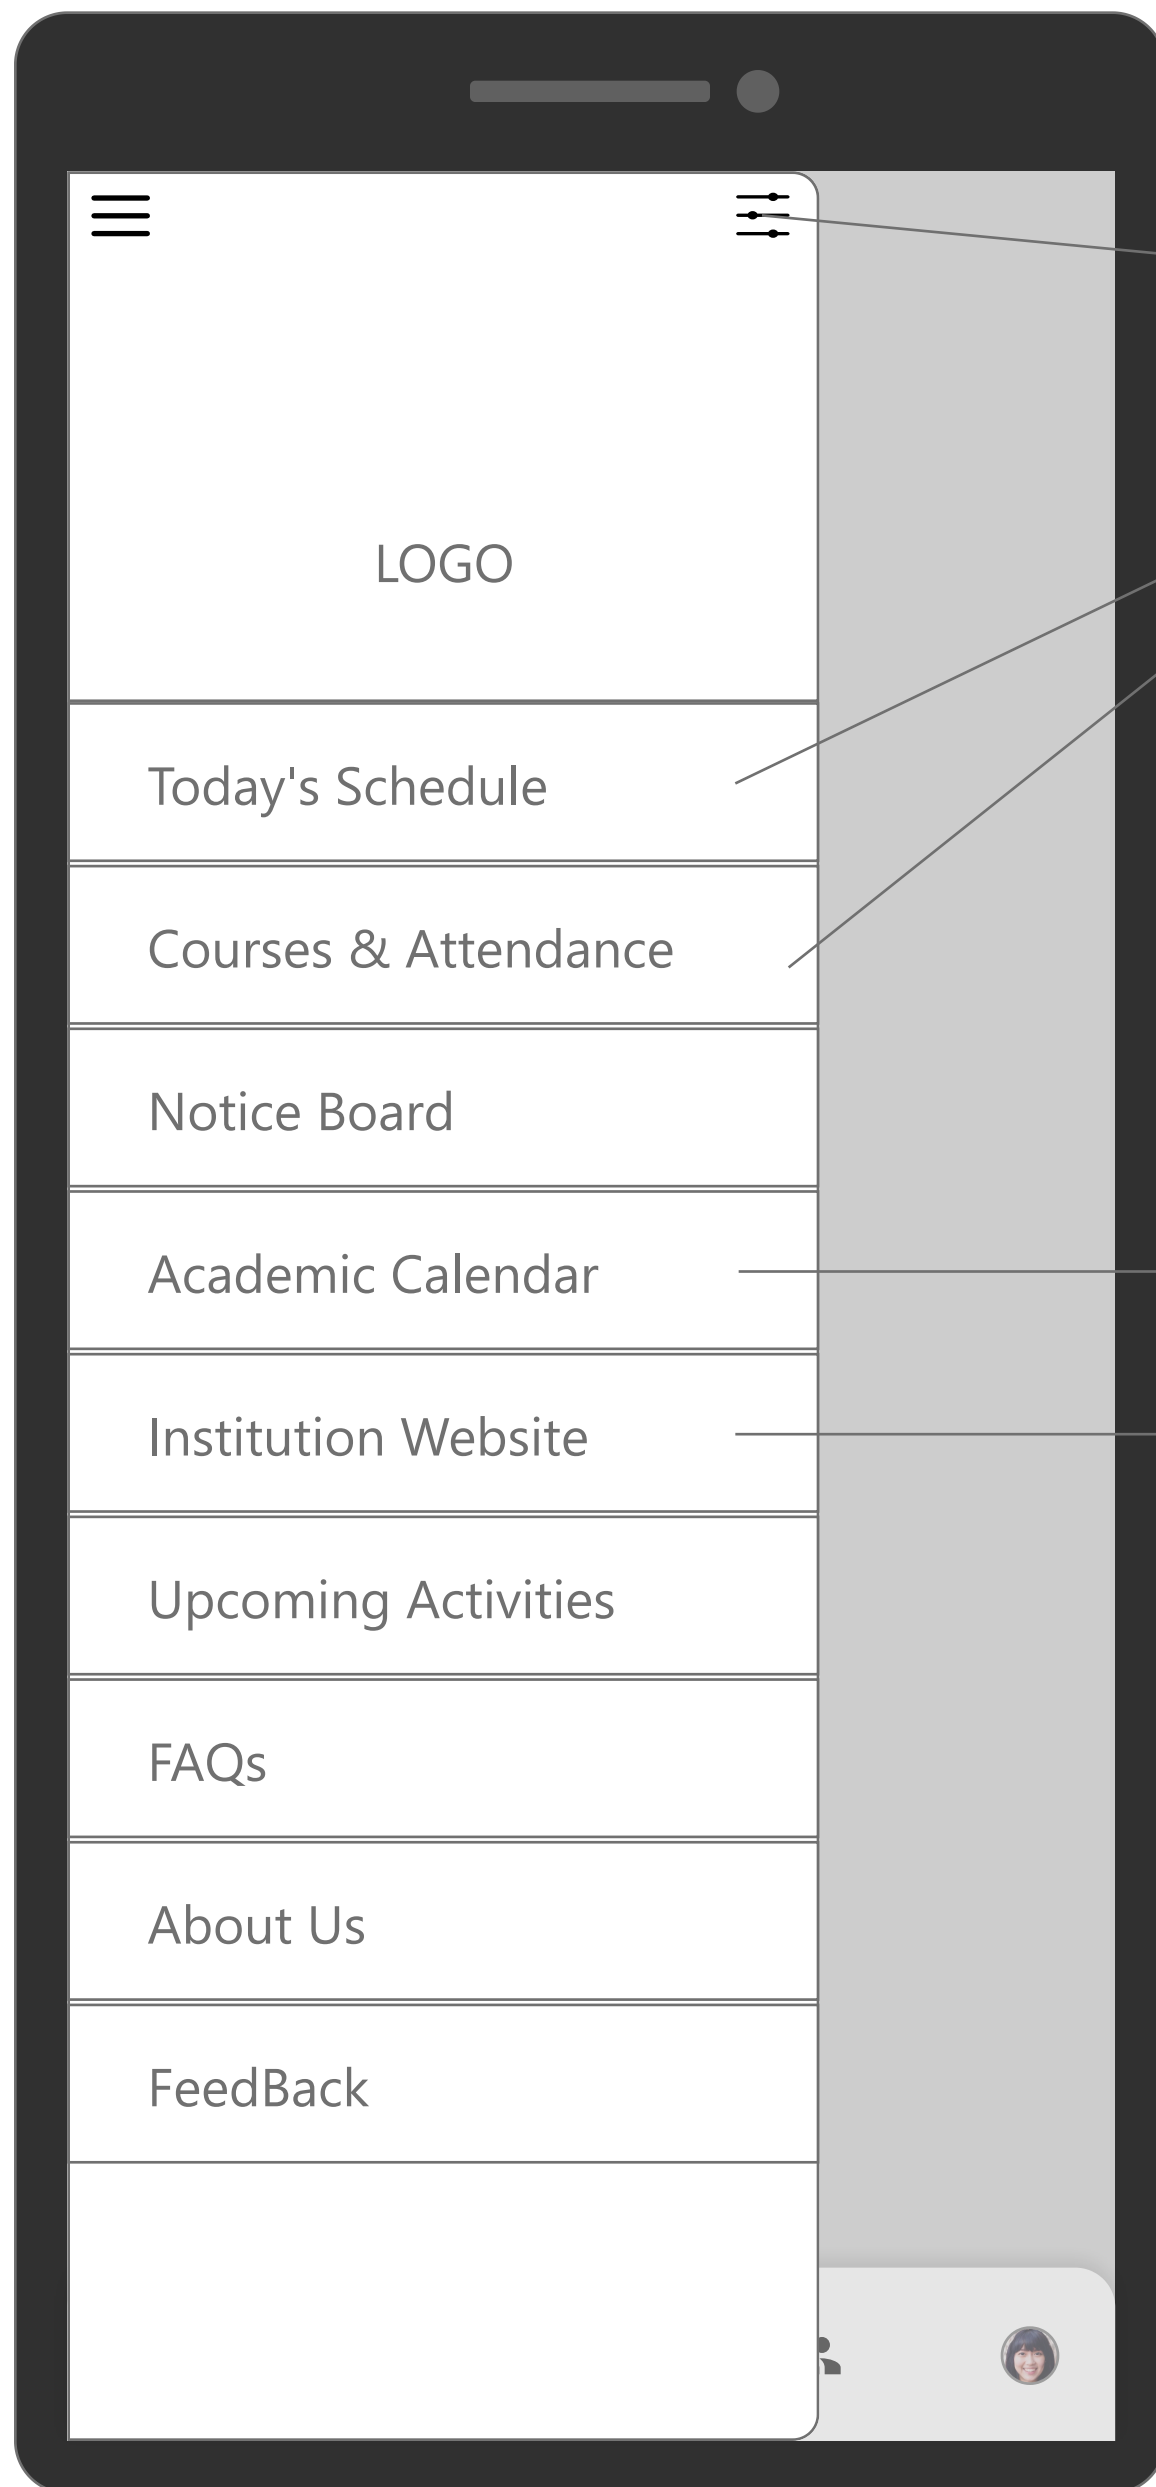

- Students cannot modify/add or delete anything
- CRs can modify the timetable as per the changes requested by faculty or others
- The final timetable must appear in the arranged order according to the time
- On clicking the ***Attend*** button, the user is navigated to the registered link for the course

This fragment is the first among all the fragments that come under ***Activity*** tab in Bottom Navigation bar and must appear first when clicked on the first option.

This fragment is first among all the fragments in the side navigation bar too

Side Navigation Bar

Classroom Settings (only for CR)

Respective fragment must load on clicking the options

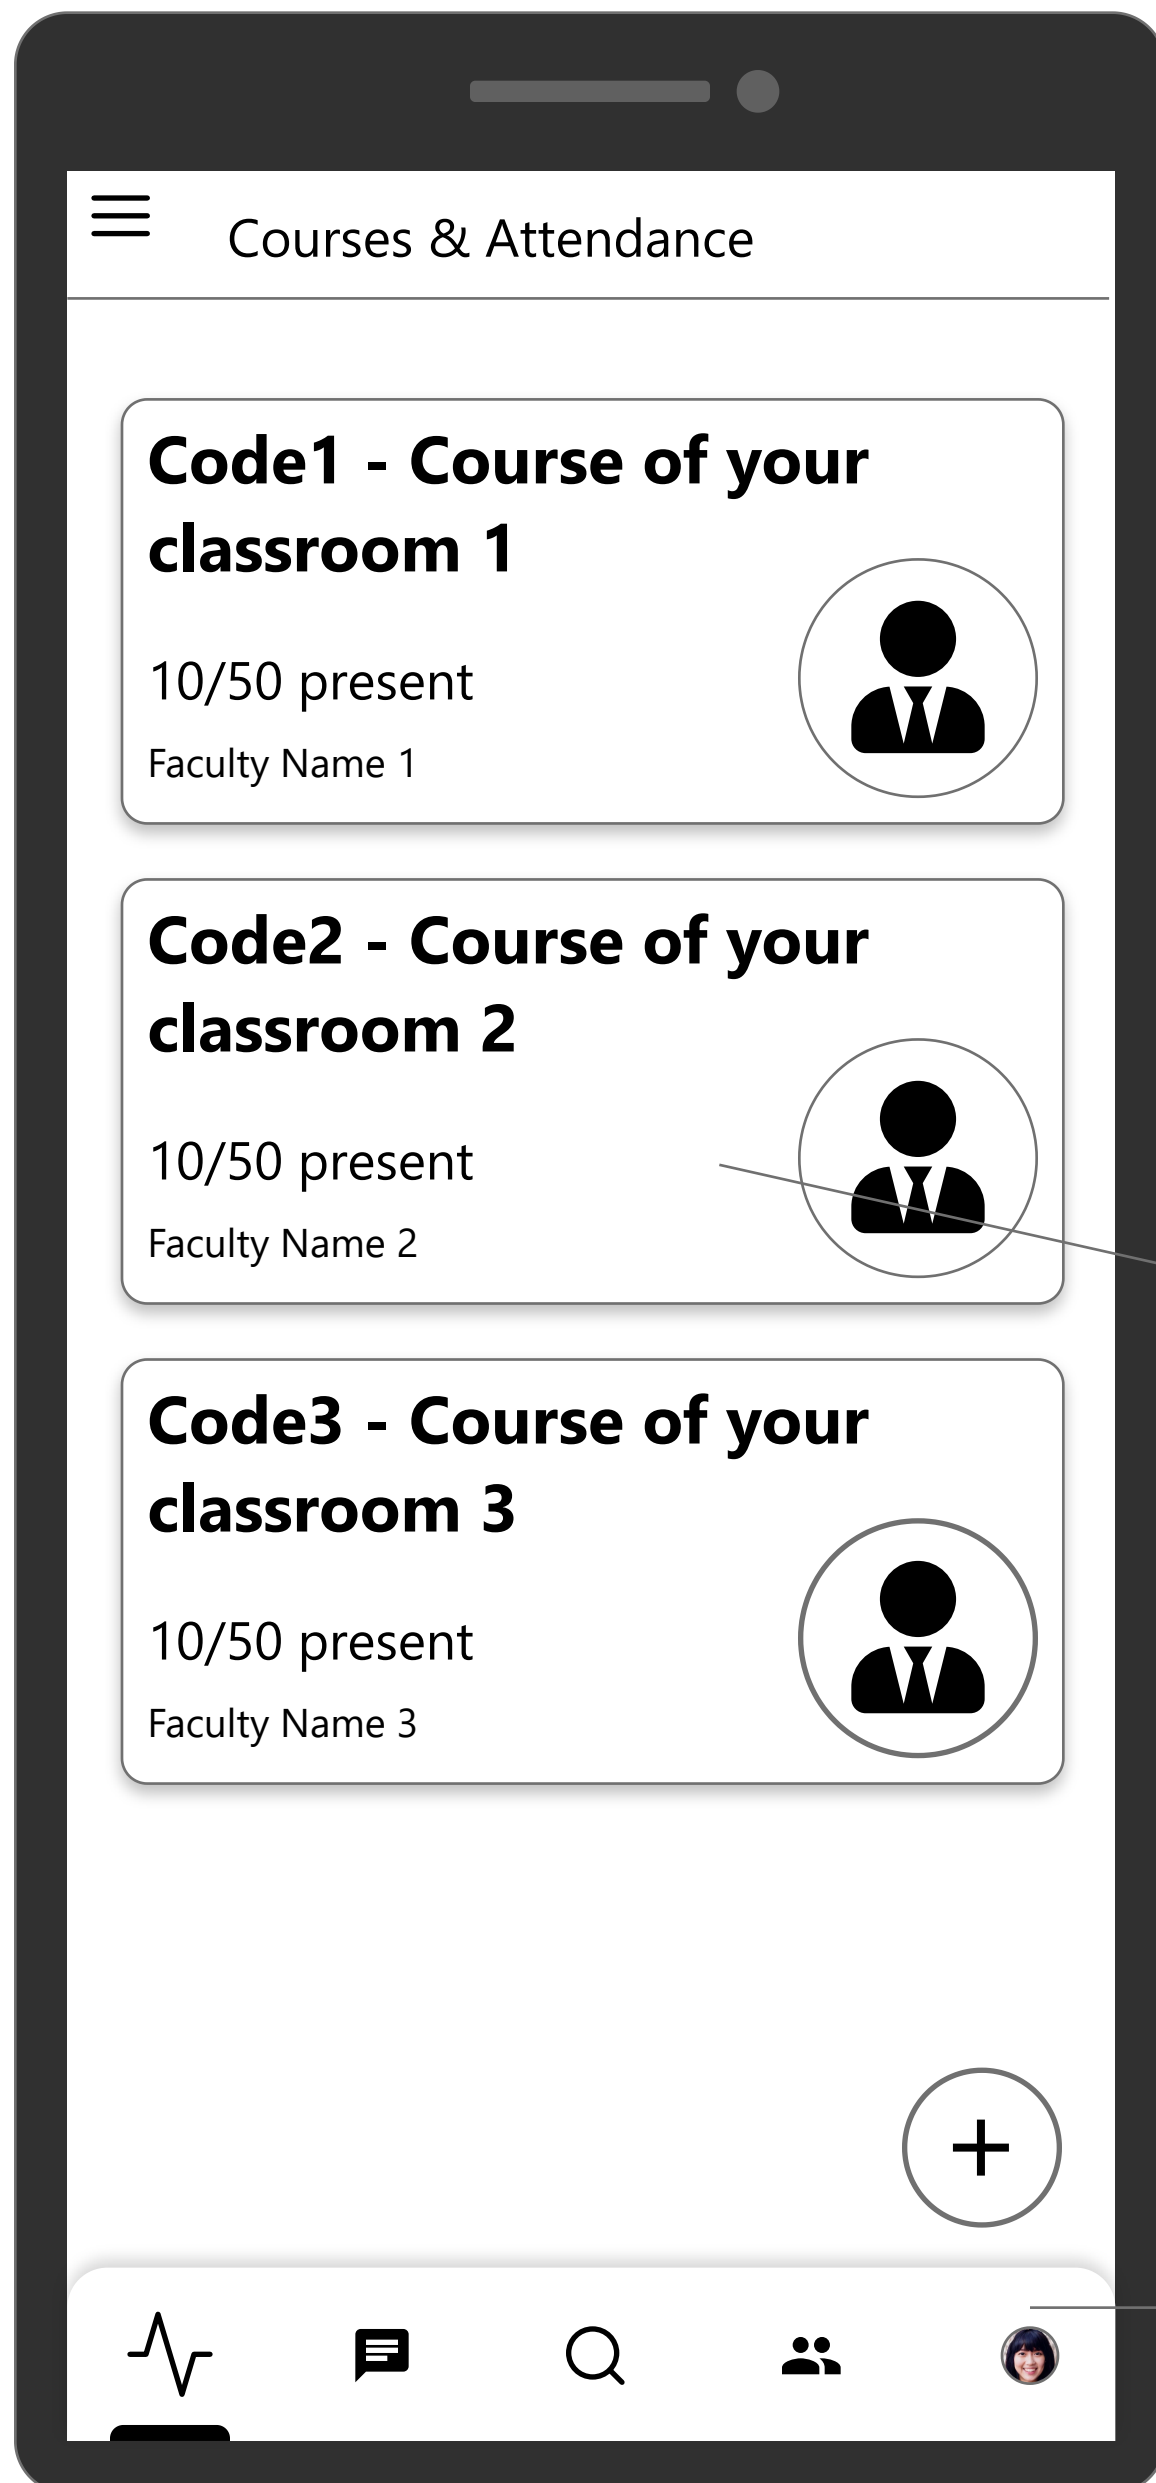

The options in side navigation bar must vary for different options in bottom navigation bar

Open Academic Calendar PDF

Open Institute website

Courses and Attendance

- Must display all the available courses for the classroom
- ***Attendance*** of the student for every course recorded must show here
- Details about the course/attendance/works will be displayed in another ***activity*** that opens on clicking the course card

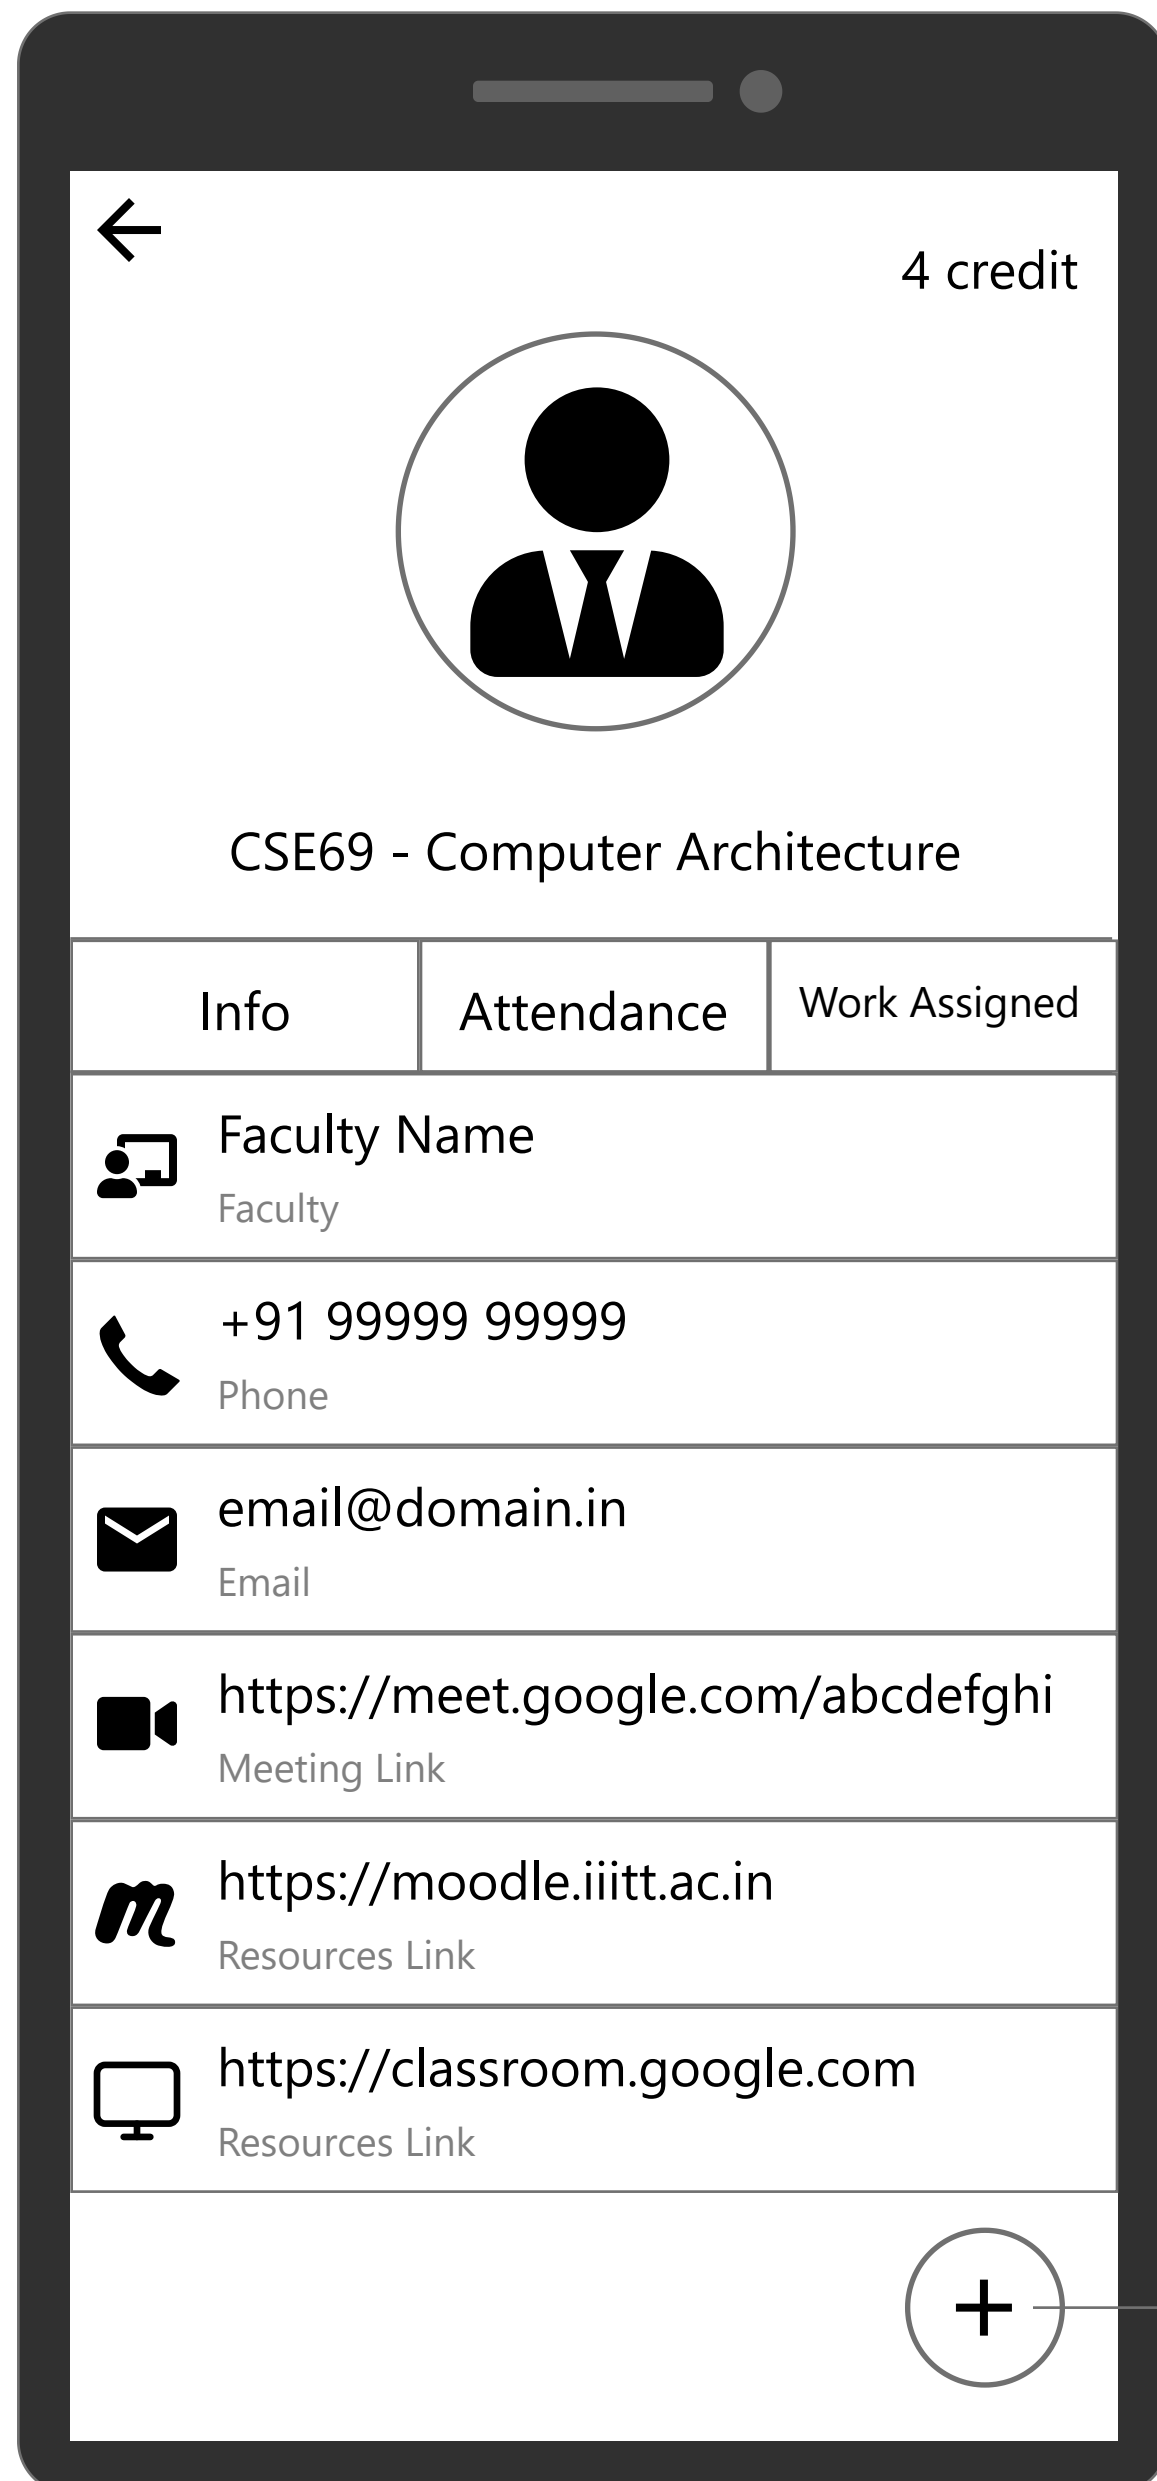

Click to open details

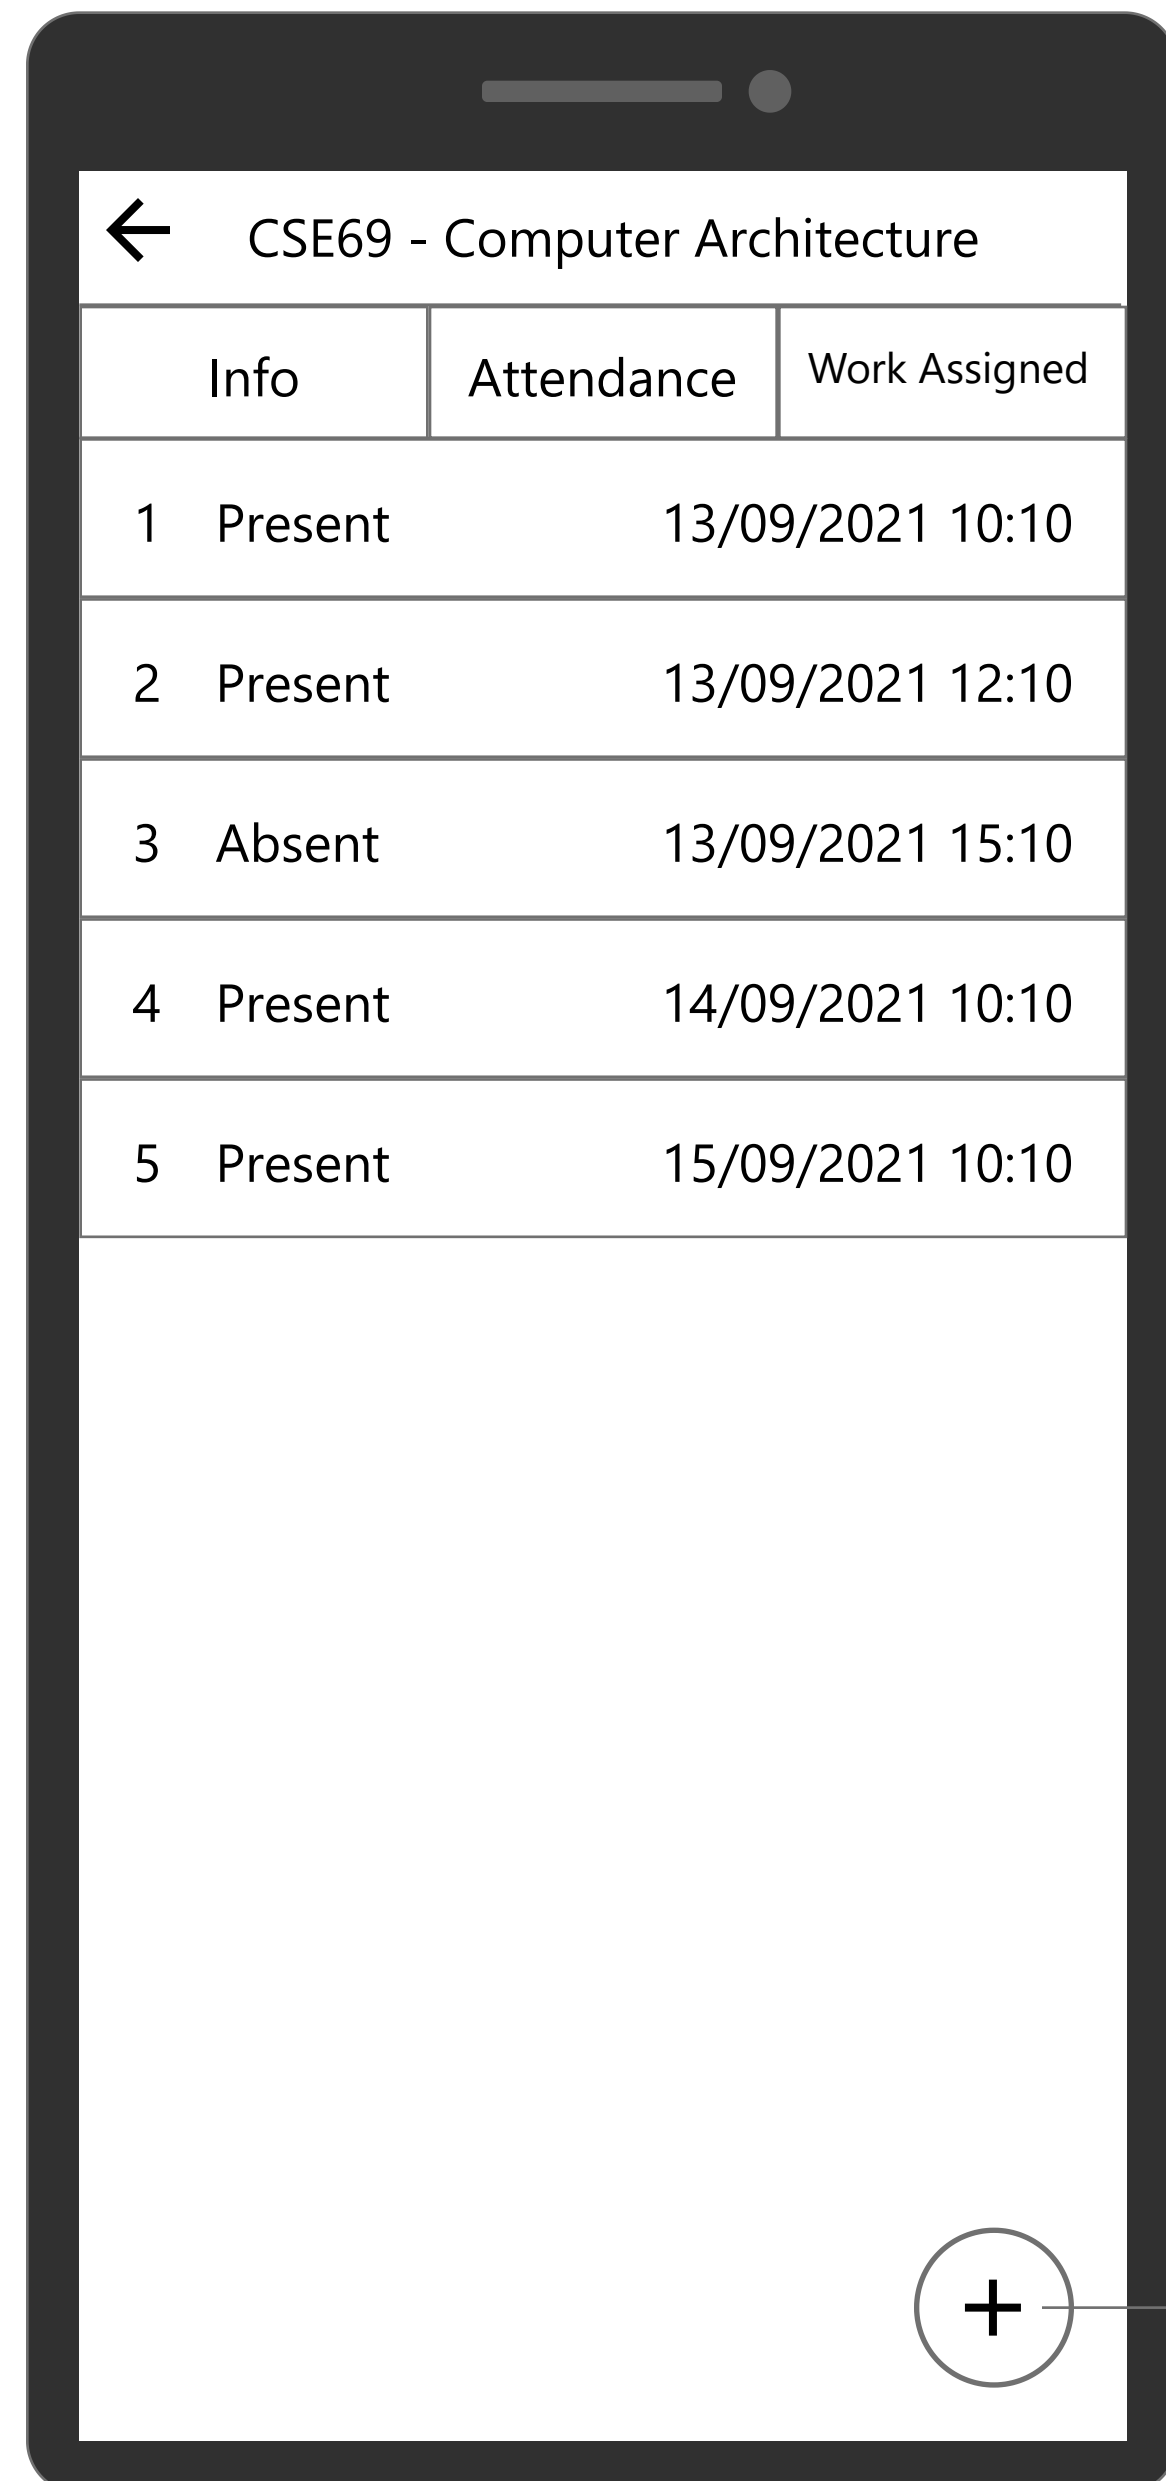

Available only for CR

Course Details - 1

- Use *collapsing toolbar* for this fragment
- Info, Attendance and Work Assigned are different tabs and must not be hidden in any state
- User must be able to slide between the tabs
- The given screen contains details for the Info tab

Course Details - 2

The image shows a mobile application interface for a course titled "CSE69 - Computer Architecture". At the top, there is a back arrow and the course name. Below this is a table with three columns: "Info", "Attendance", and "Work Assigned". The table contains five rows of attendance data. At the bottom of the screen, there is a large circular button with a plus sign inside.

	Info	Attendance	Work Assigned
1	Present	13/09/2021 10:10	
2	Present	13/09/2021 12:10	
3	Absent	13/09/2021 15:10	
4	Present	14/09/2021 10:10	
5	Present	15/09/2021 10:10	

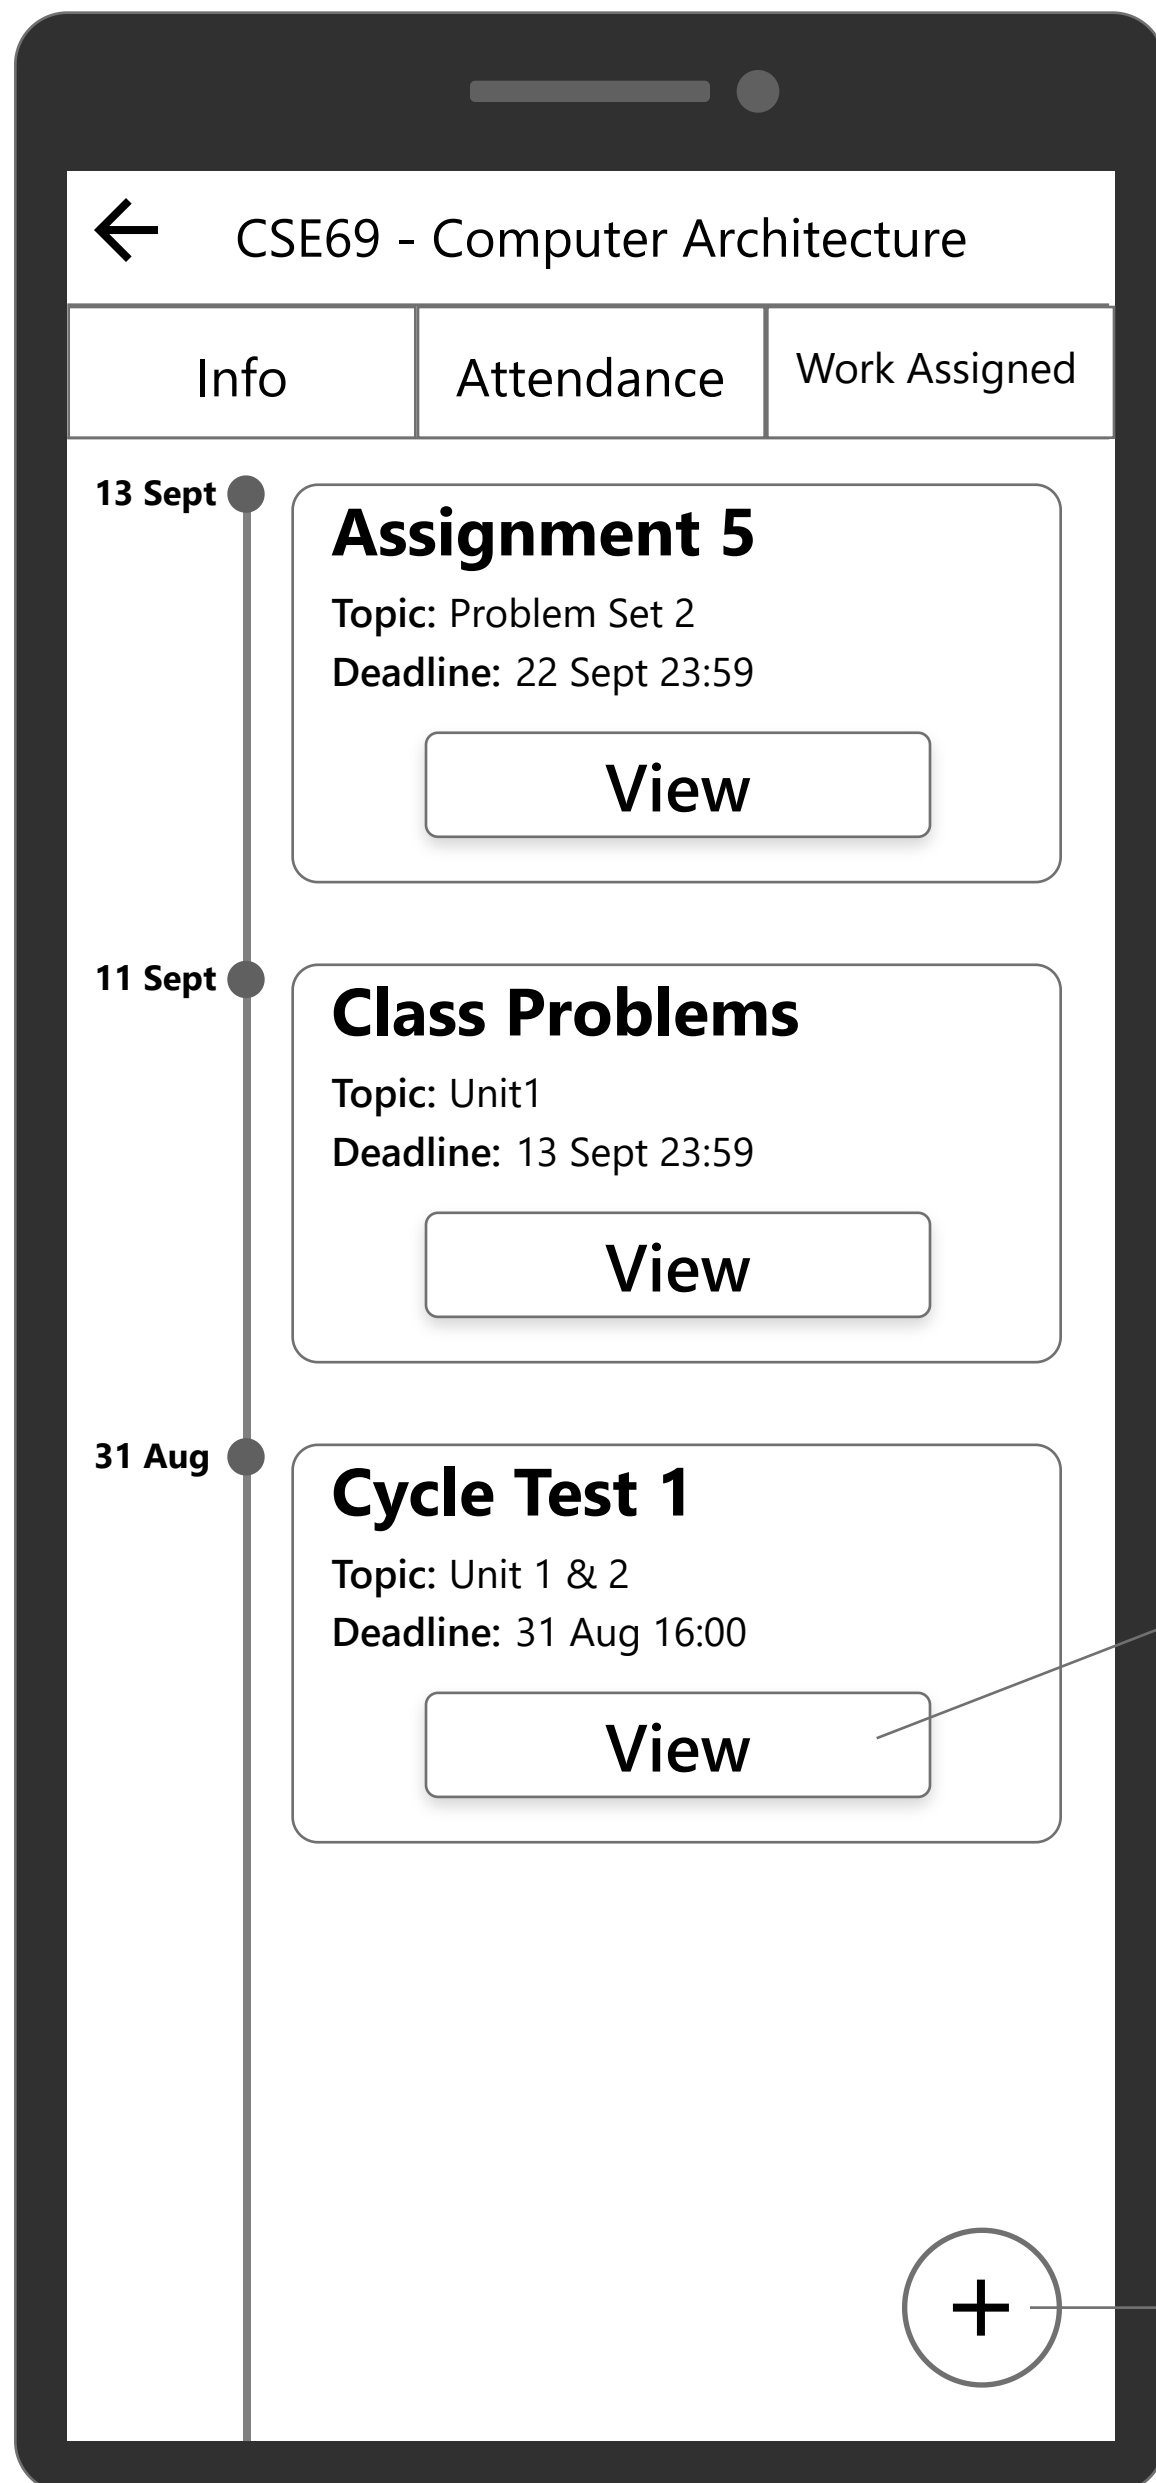

+

- The given screen contains details for the ***Attendance*** tab
- Option will be available for CR to mark the absentees for every session
- Student may contact the CR for any false records and the CR can edit the attendance
- Student must be notified whenever someone marks attendance for them or edits the previous attendance

Available only for CR

Course Details - 3

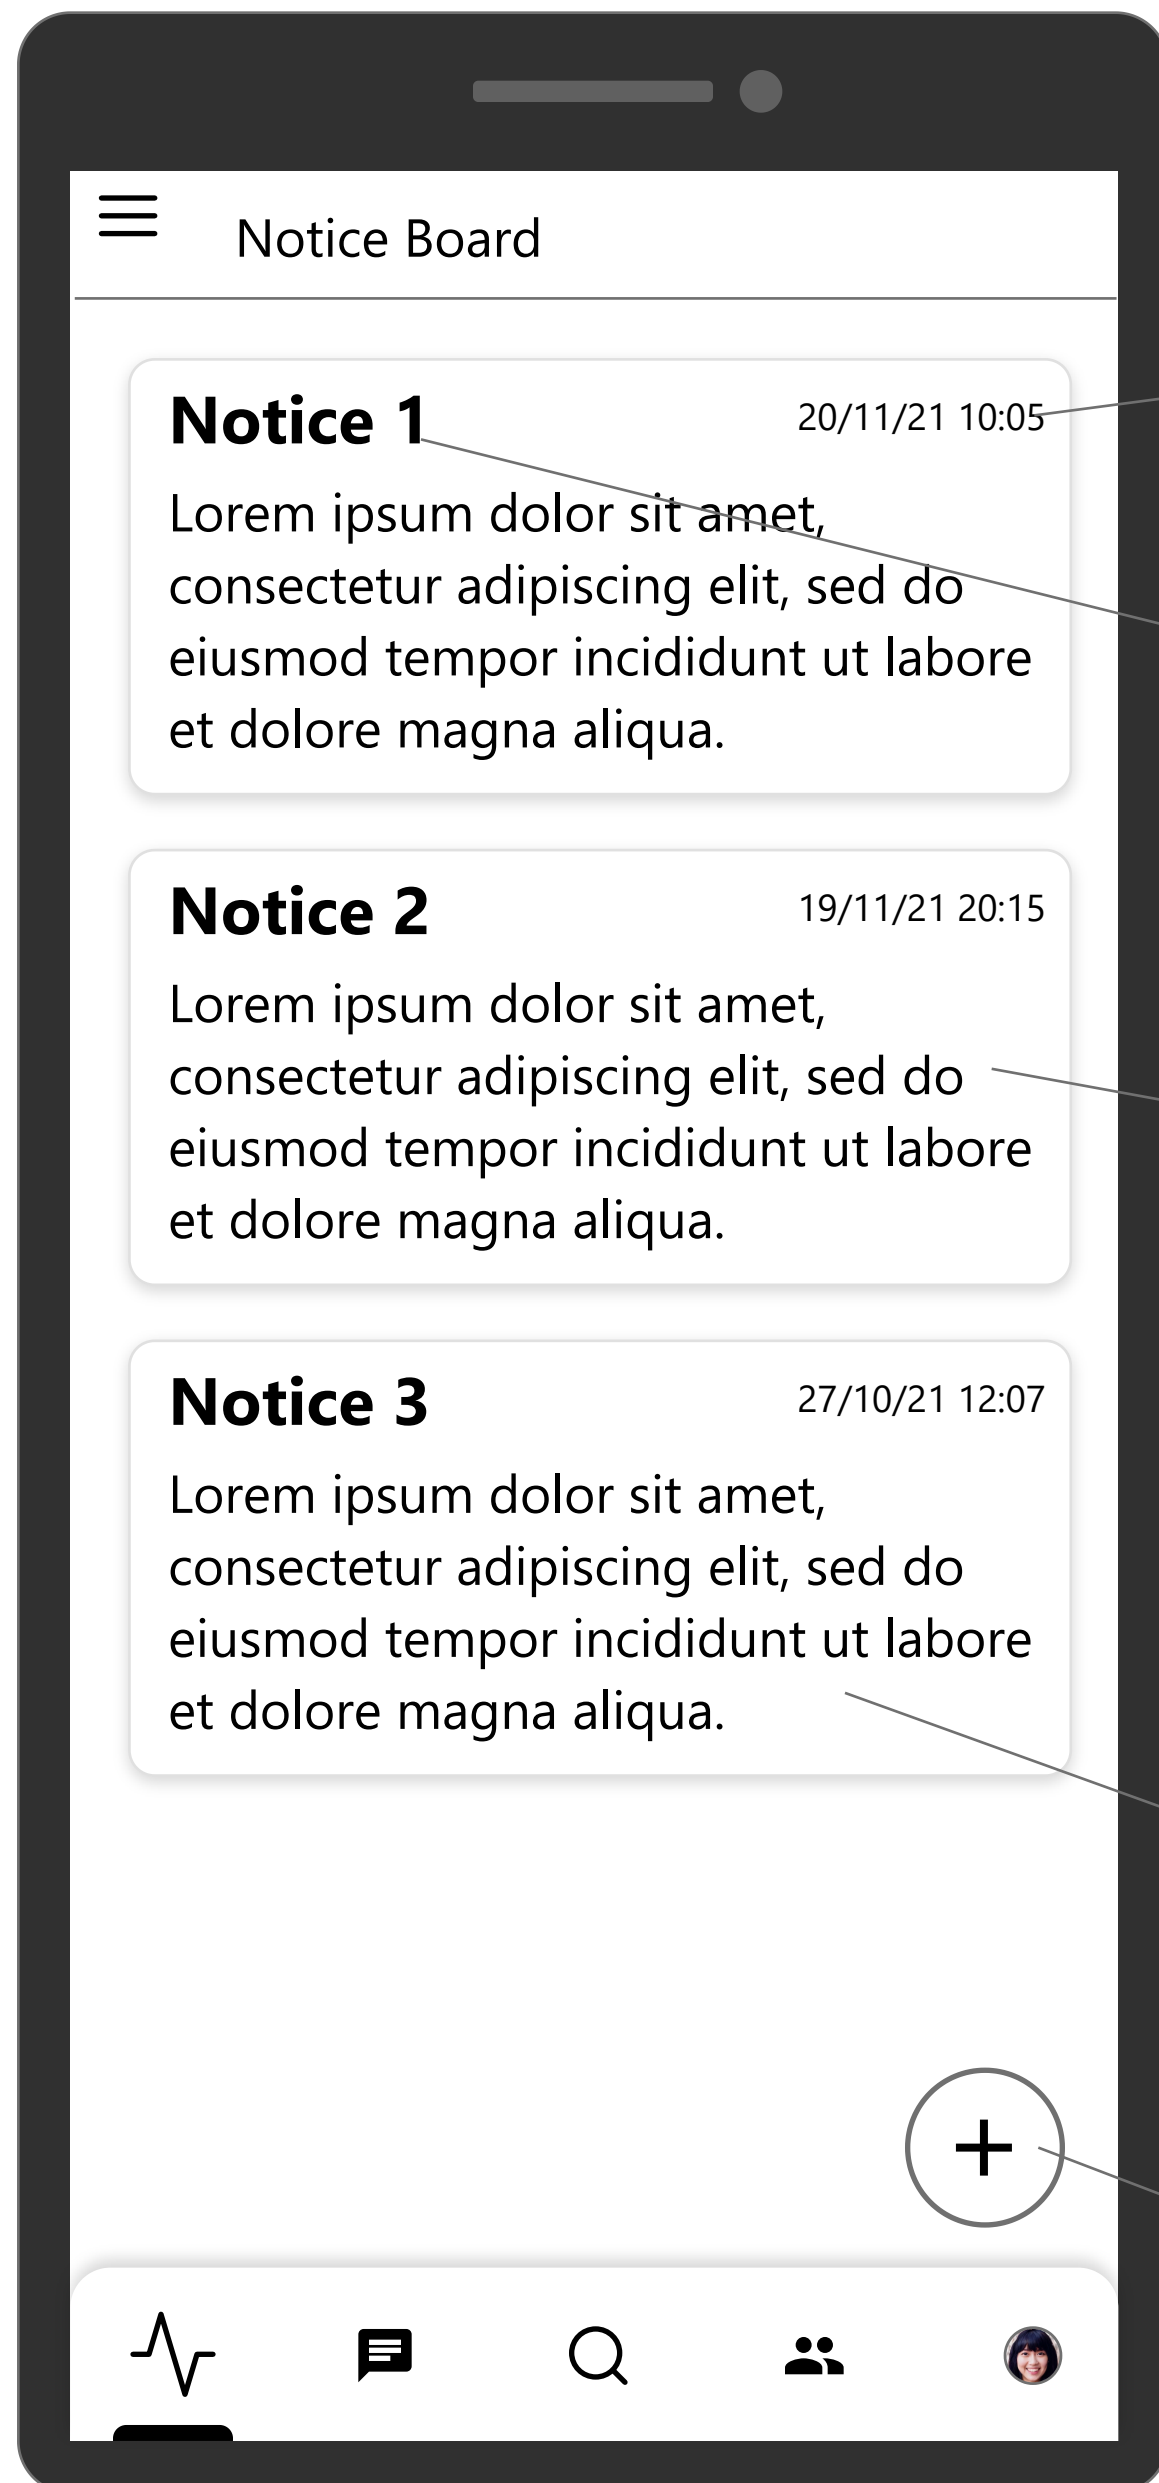

- The given screen contains details for the **Work** tab
- Option will be available for CR to add new assignments/test schedules for the course
- Deadline for a test/exam means the day of test/exam
- Student may contact the CR for any false records and the CR can edit the work
- Student must be notified whenever there is a new work added or an existing work is modified

View button will open a dialog containing details about the work

Available only for CR

Notice Board

Time and date of notification

Notice/Announcement

Description

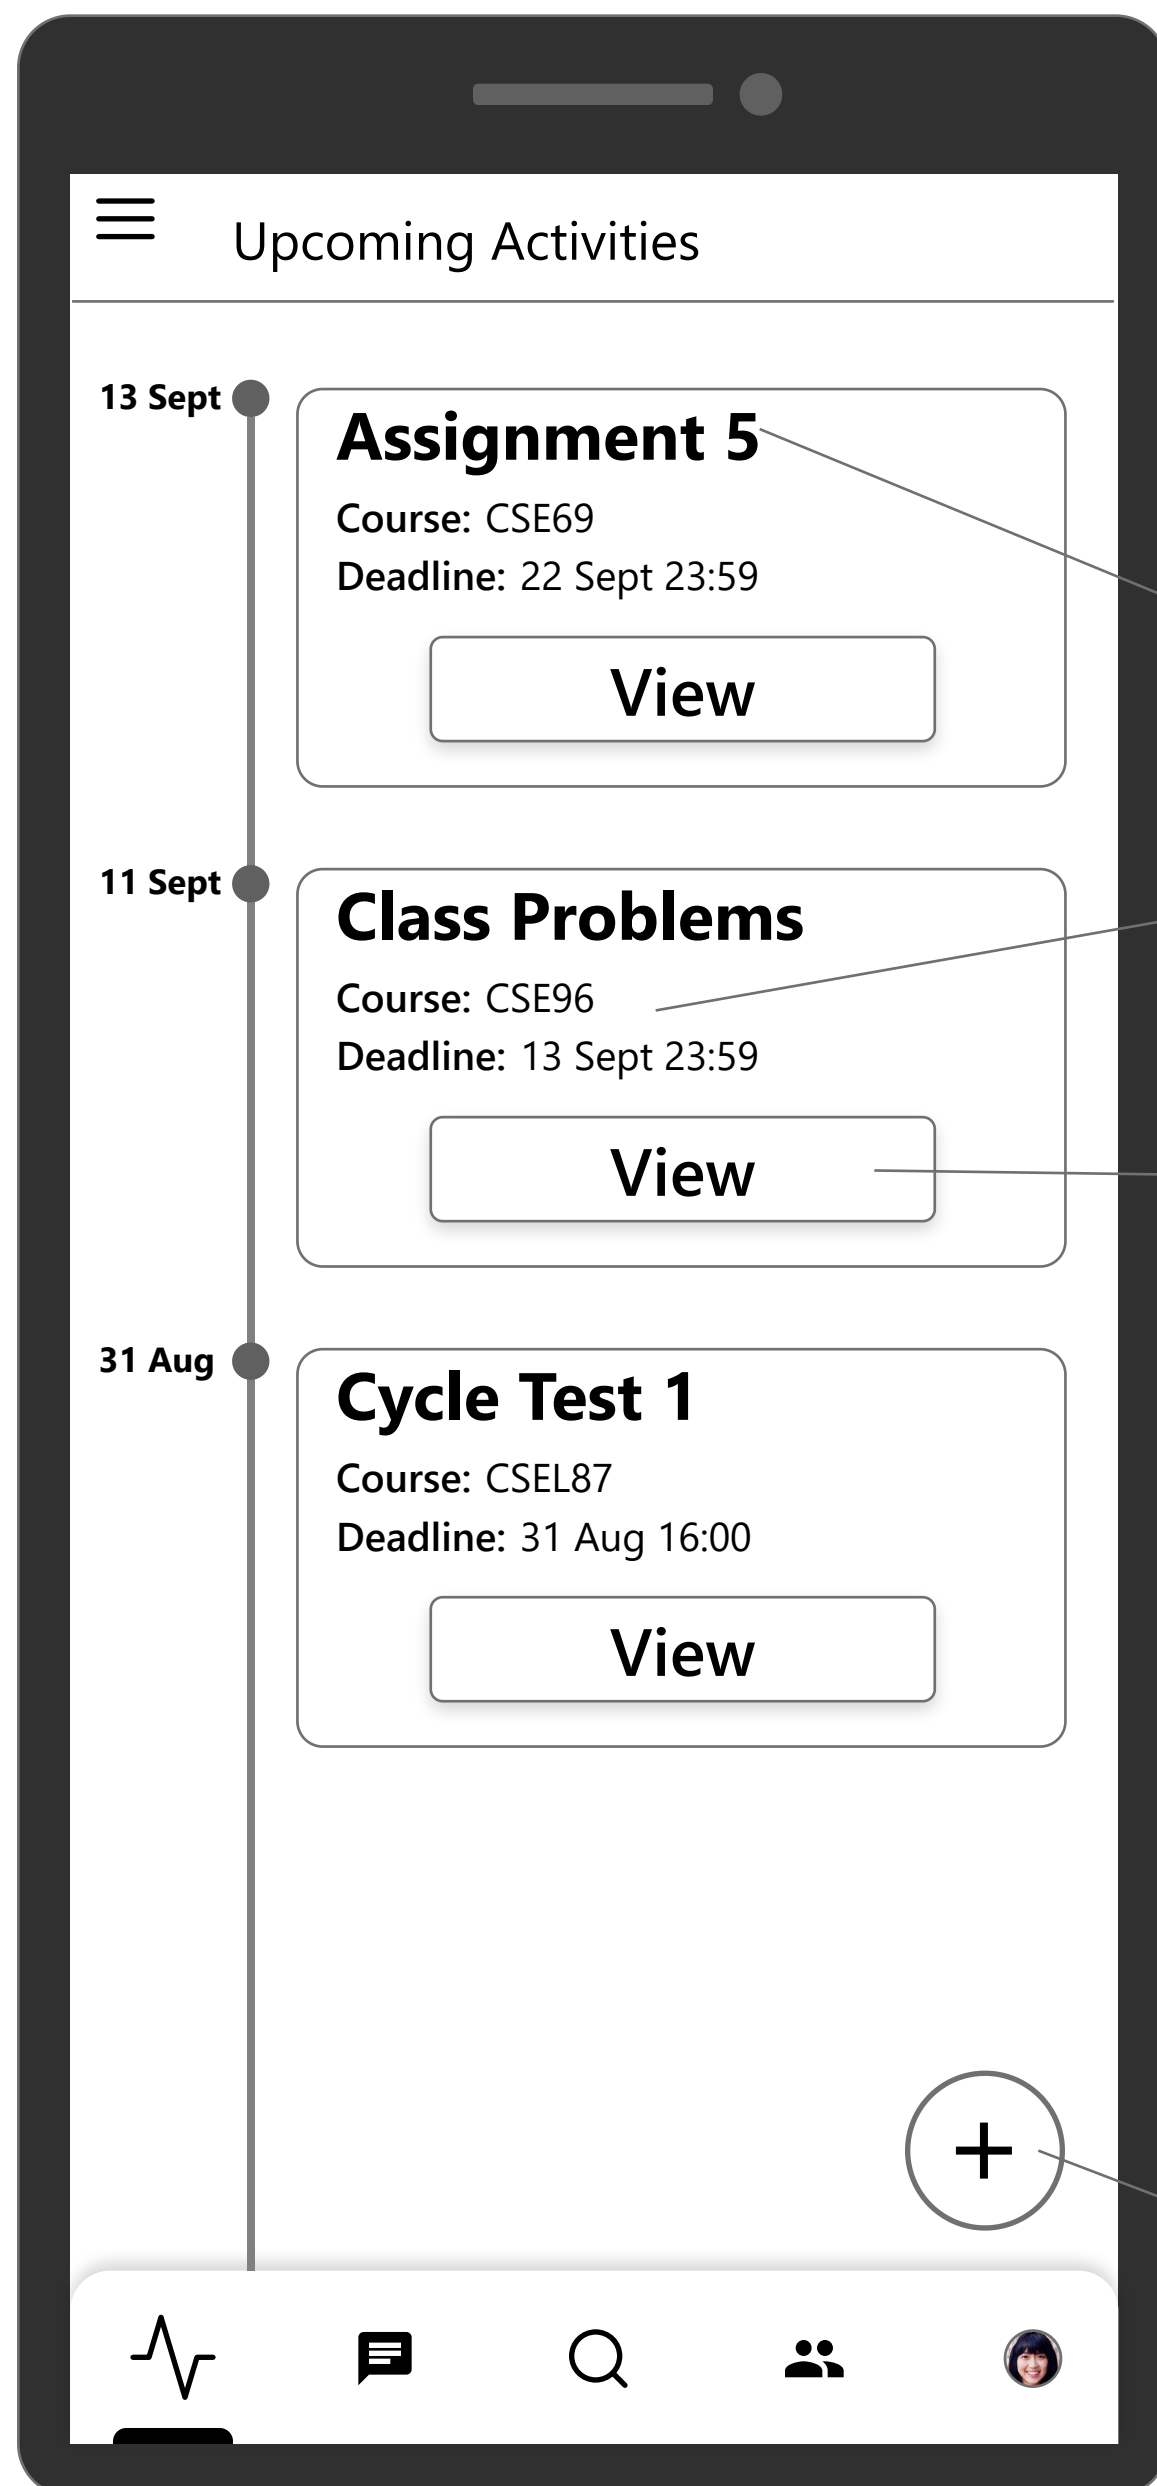

If the description is long, maximum 4 lines must be displayed followed by ...

A dialog must open on click which shows complete description of notice/announcement and may contain buttons with specific actions

Available only for CR

Upcoming Activities

- Show a timeline based on all the works that were added in the *Courses and Attendance* section
- Only future works should be displayed

Title of work

Brief description

On clicking a dialog must open containing the full description and relevant links
We can design an activity too depending on the amount of information provided

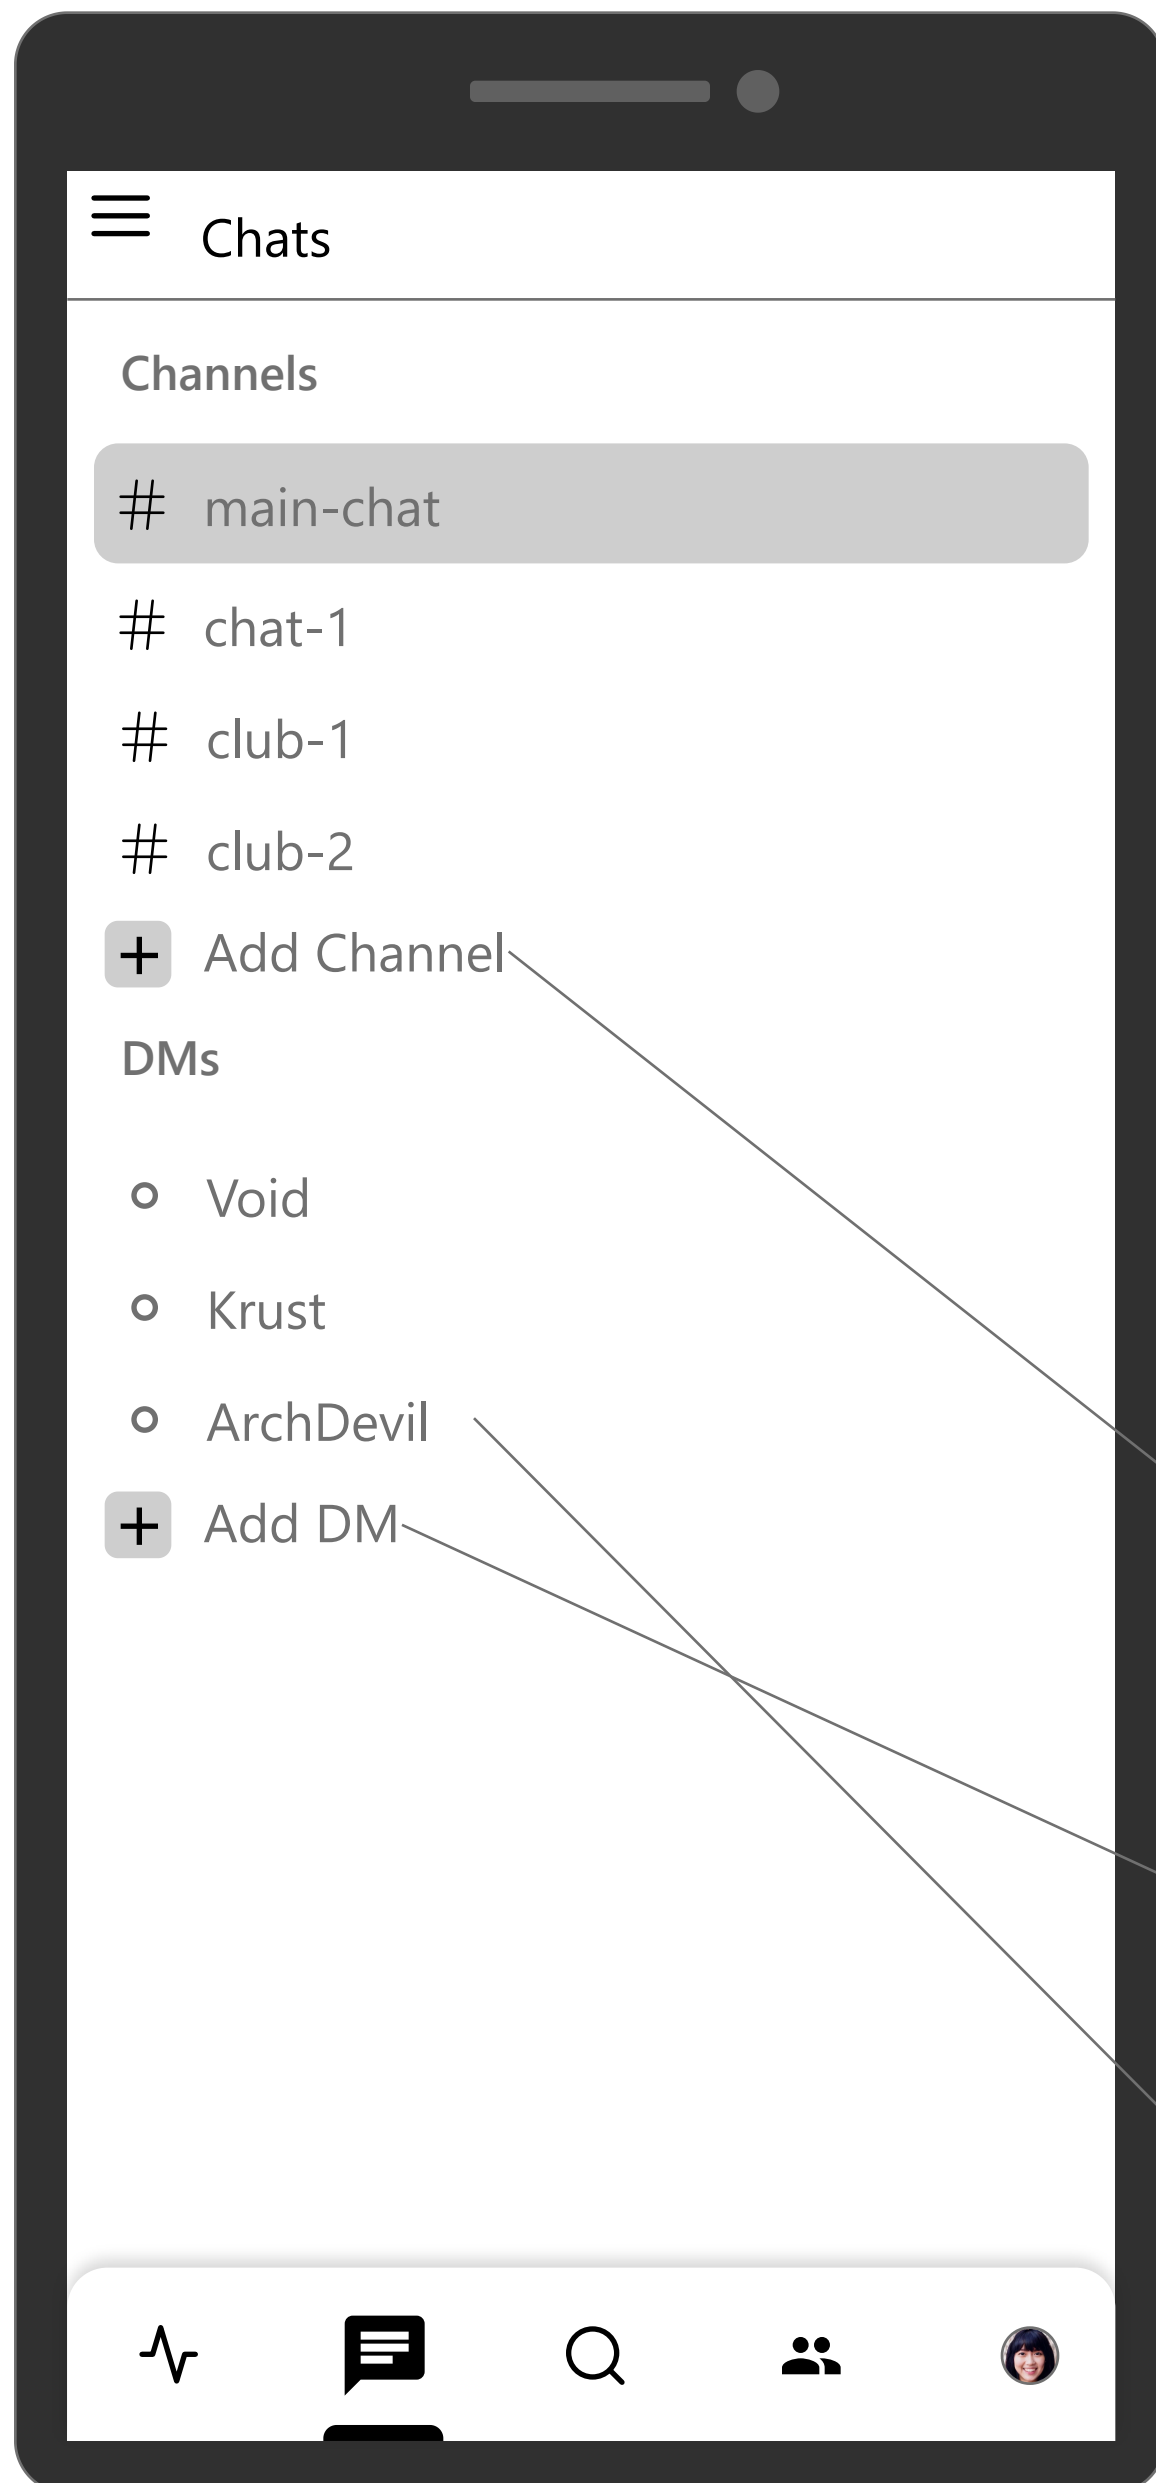

Available only for CR

Chats and Forum

This is not a different activity but different fragment.

The control of chats can be managed by roles. CRs are comparable to administrators of the entire application and hence reserve the power to make new roles and allot to other members

- There can be as many channels as per the requirement
- By default DM by the name of the user is present. This can be used to store personal messages and todo list. Data is kept personal and is not shared with anyone

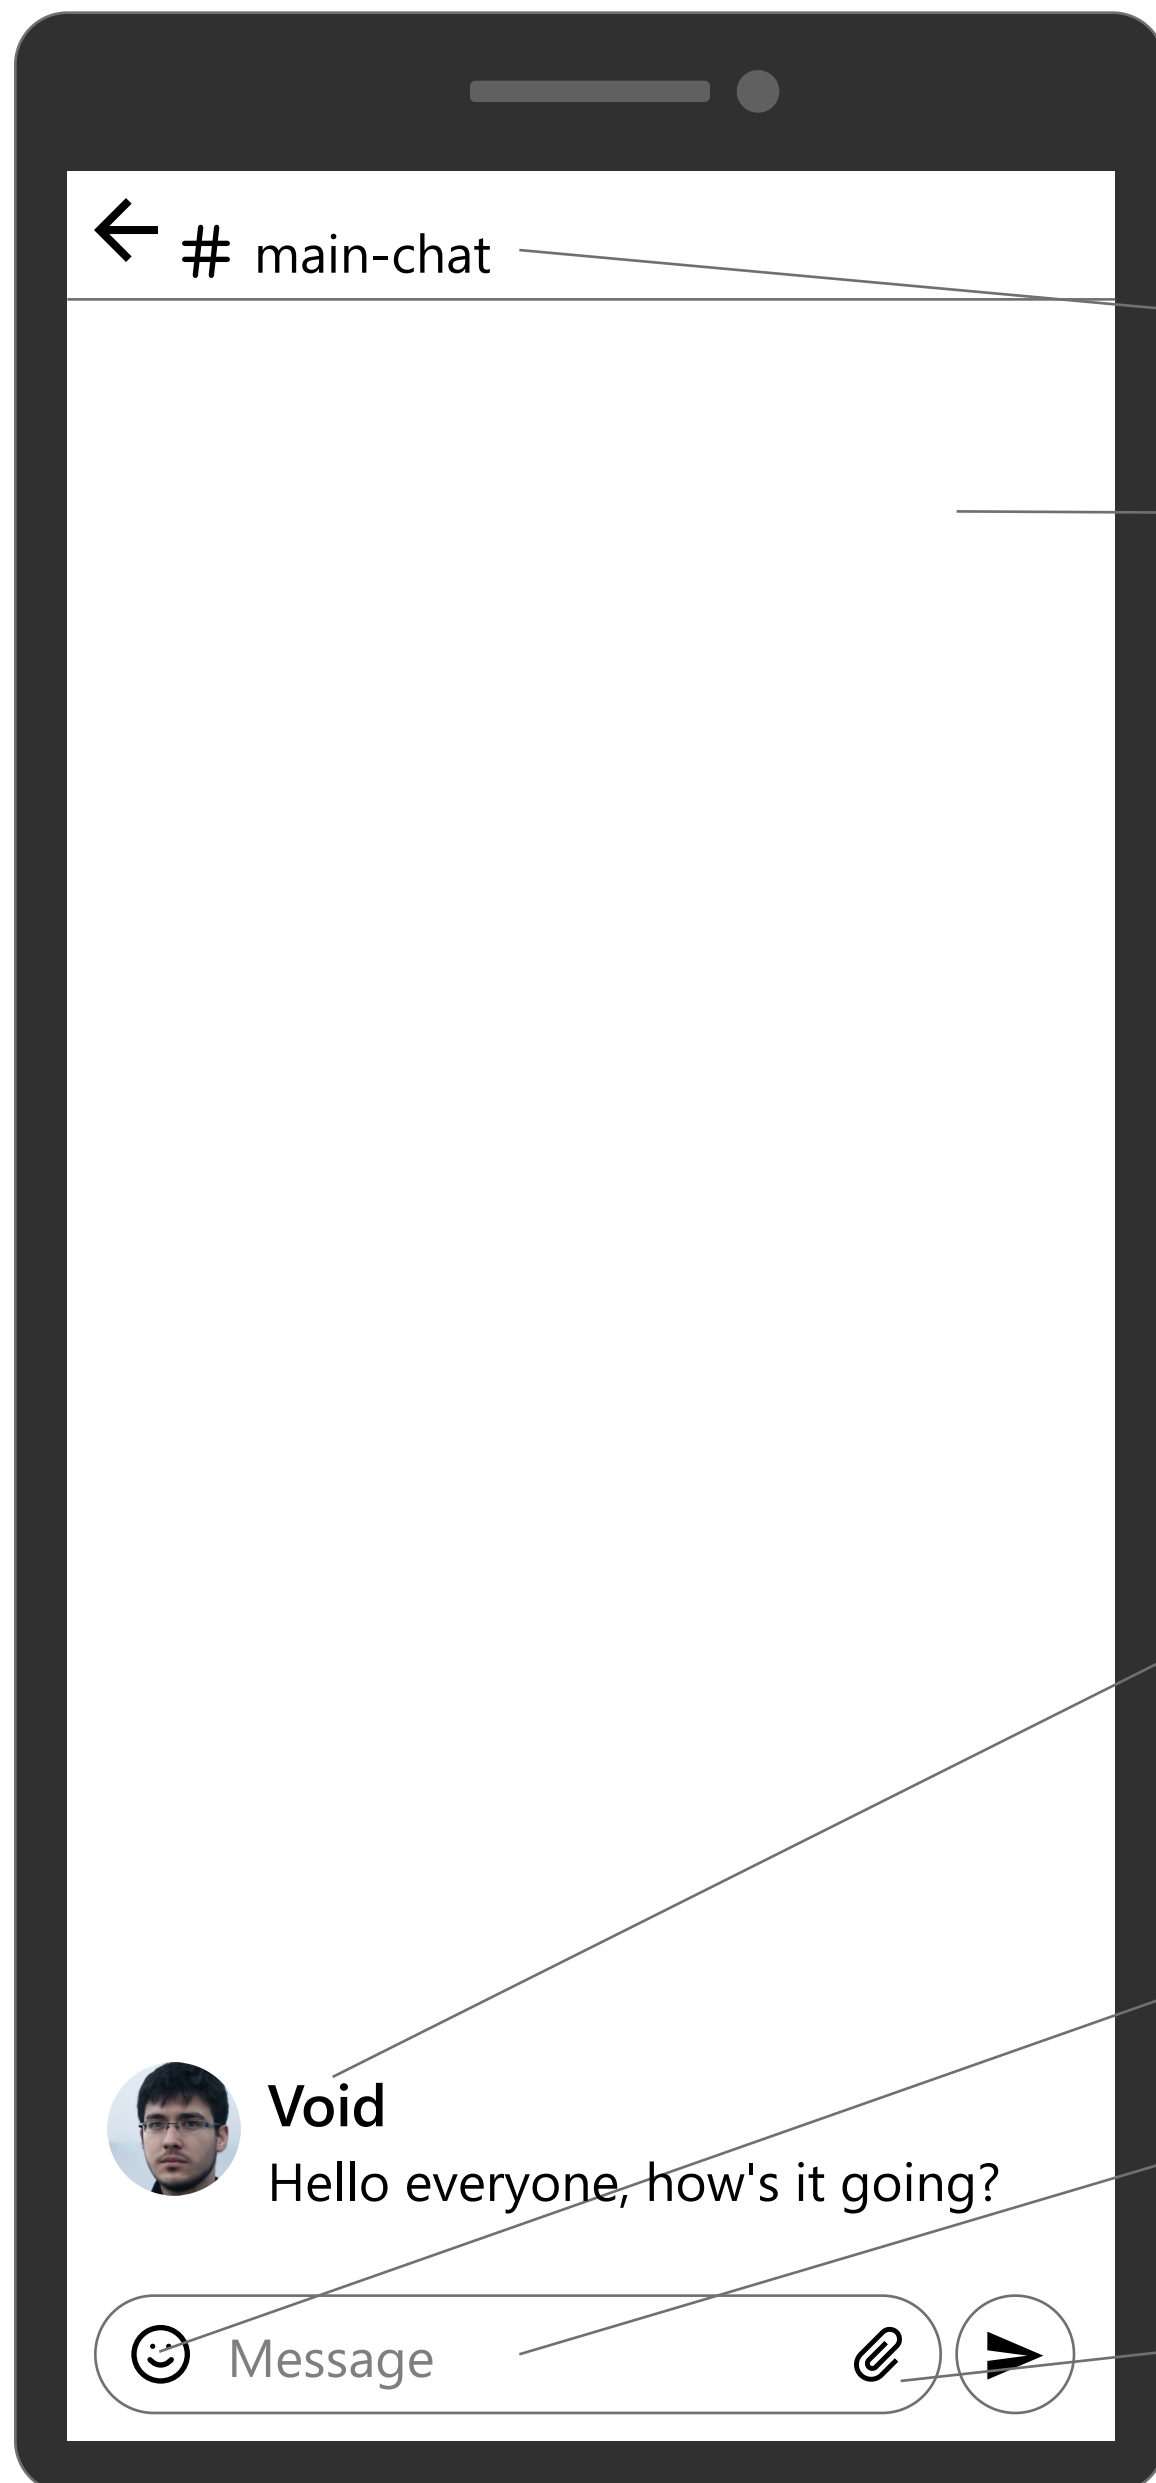

Available to only those who have manage channels permission

Available for everyone. New DMs can be added. Should display all the users in the classroom to start DM with

Clicking on any channel/DM will open a new activity to chat

Chat Activity

Channel/DM name

Recycler view for messages

A welcome text in the background that shows at the beginning of the chat is required which would eventually scroll up as new messages keep coming

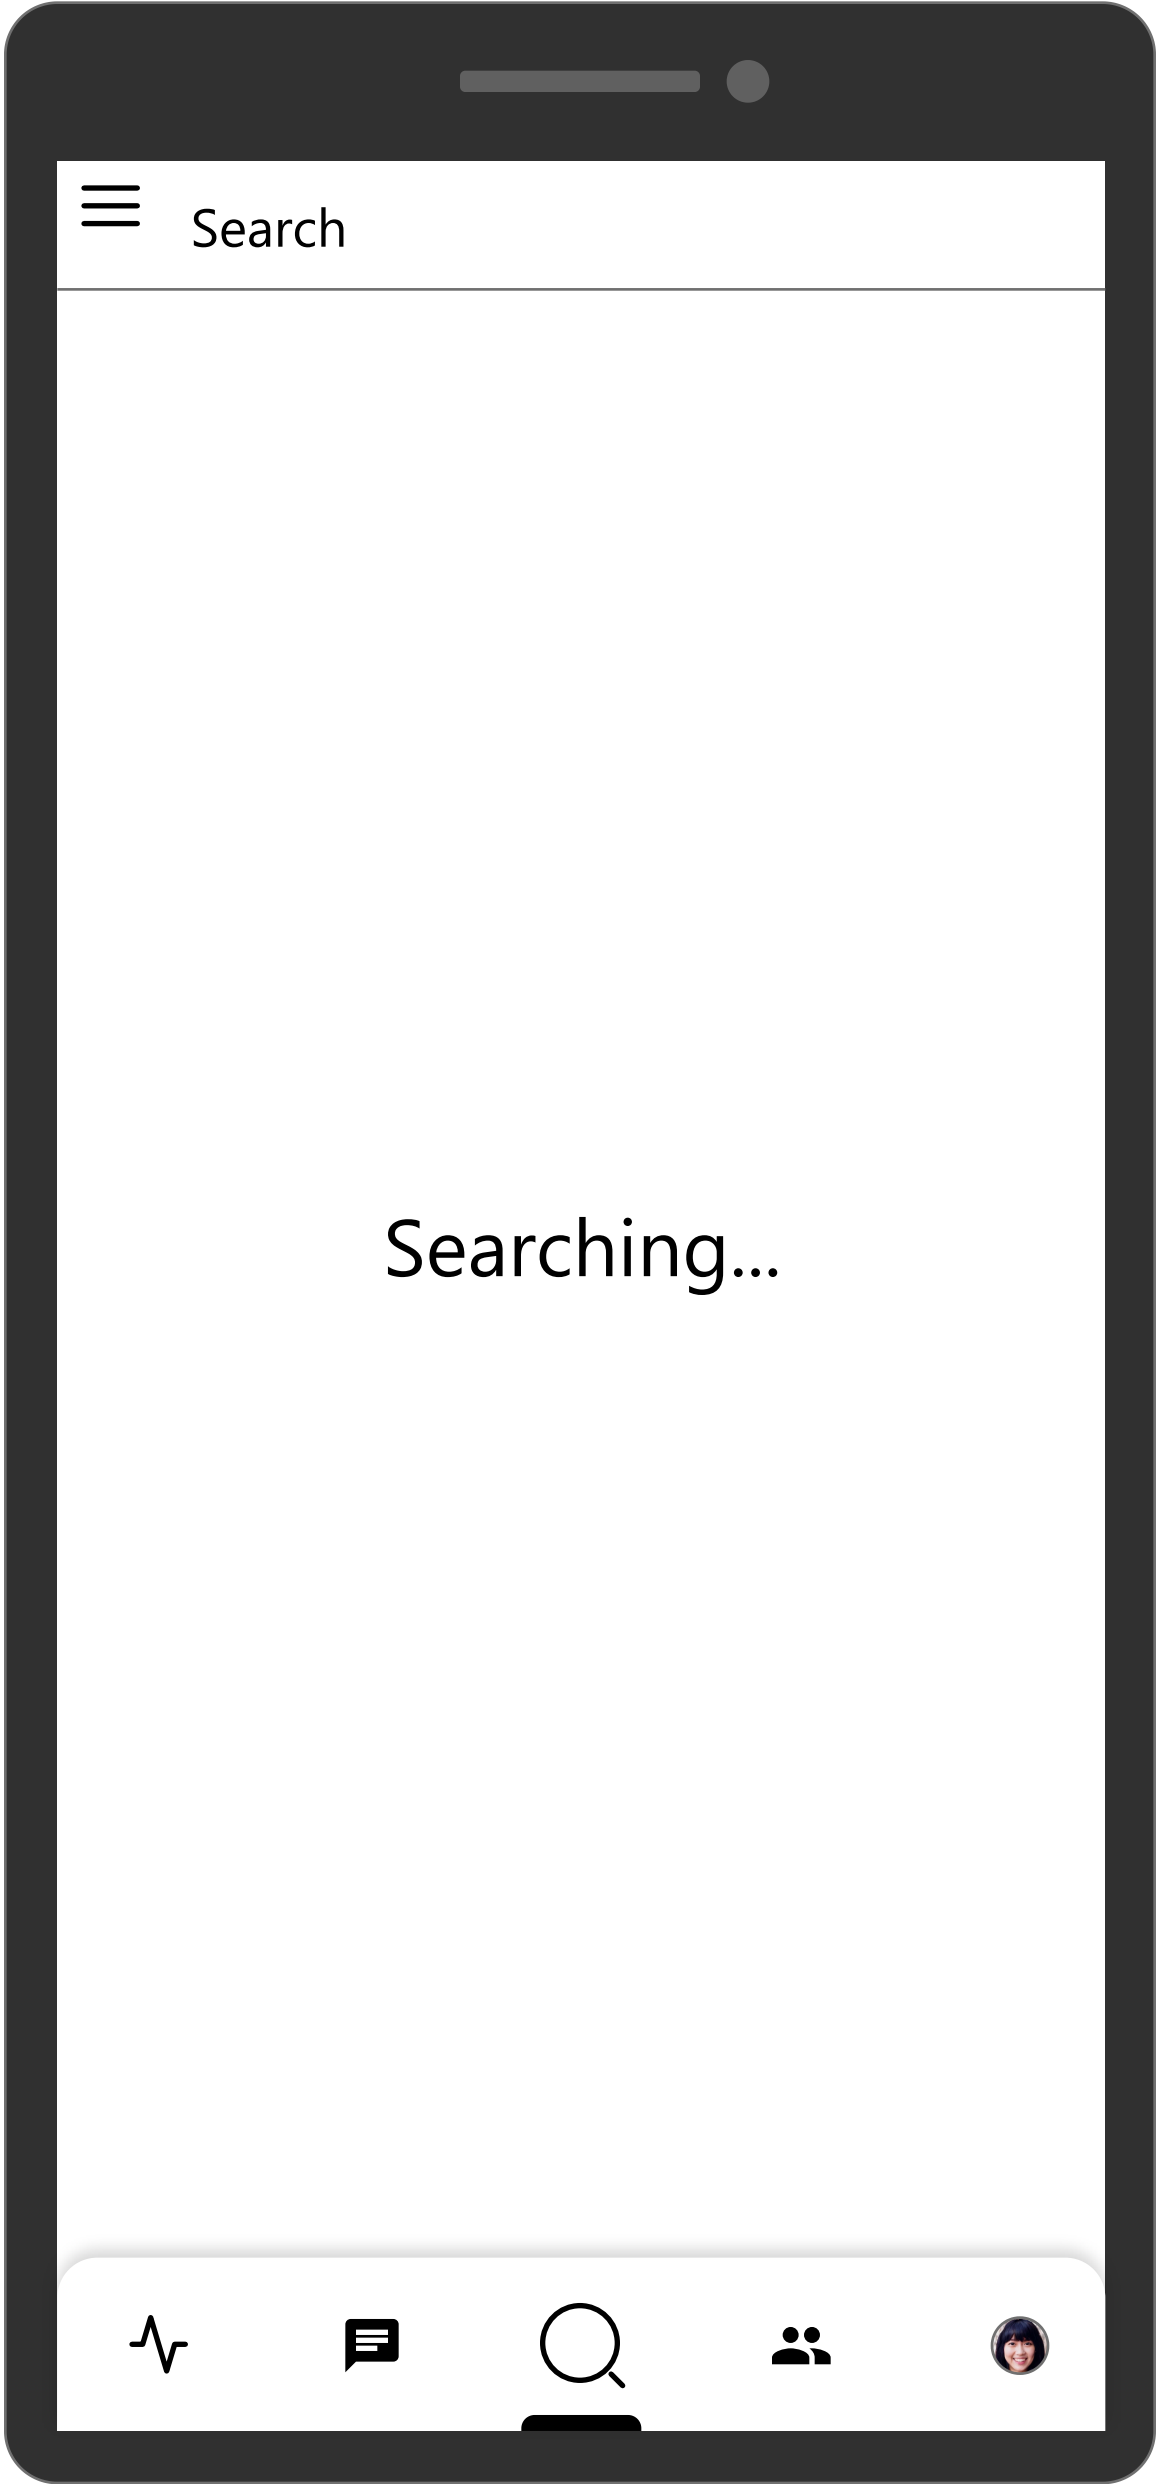

Must open a bottom sheet upon clicking name or profile photo which contains profile information and relevant buttons to add DM, etc.

Must open an emoji keyboard

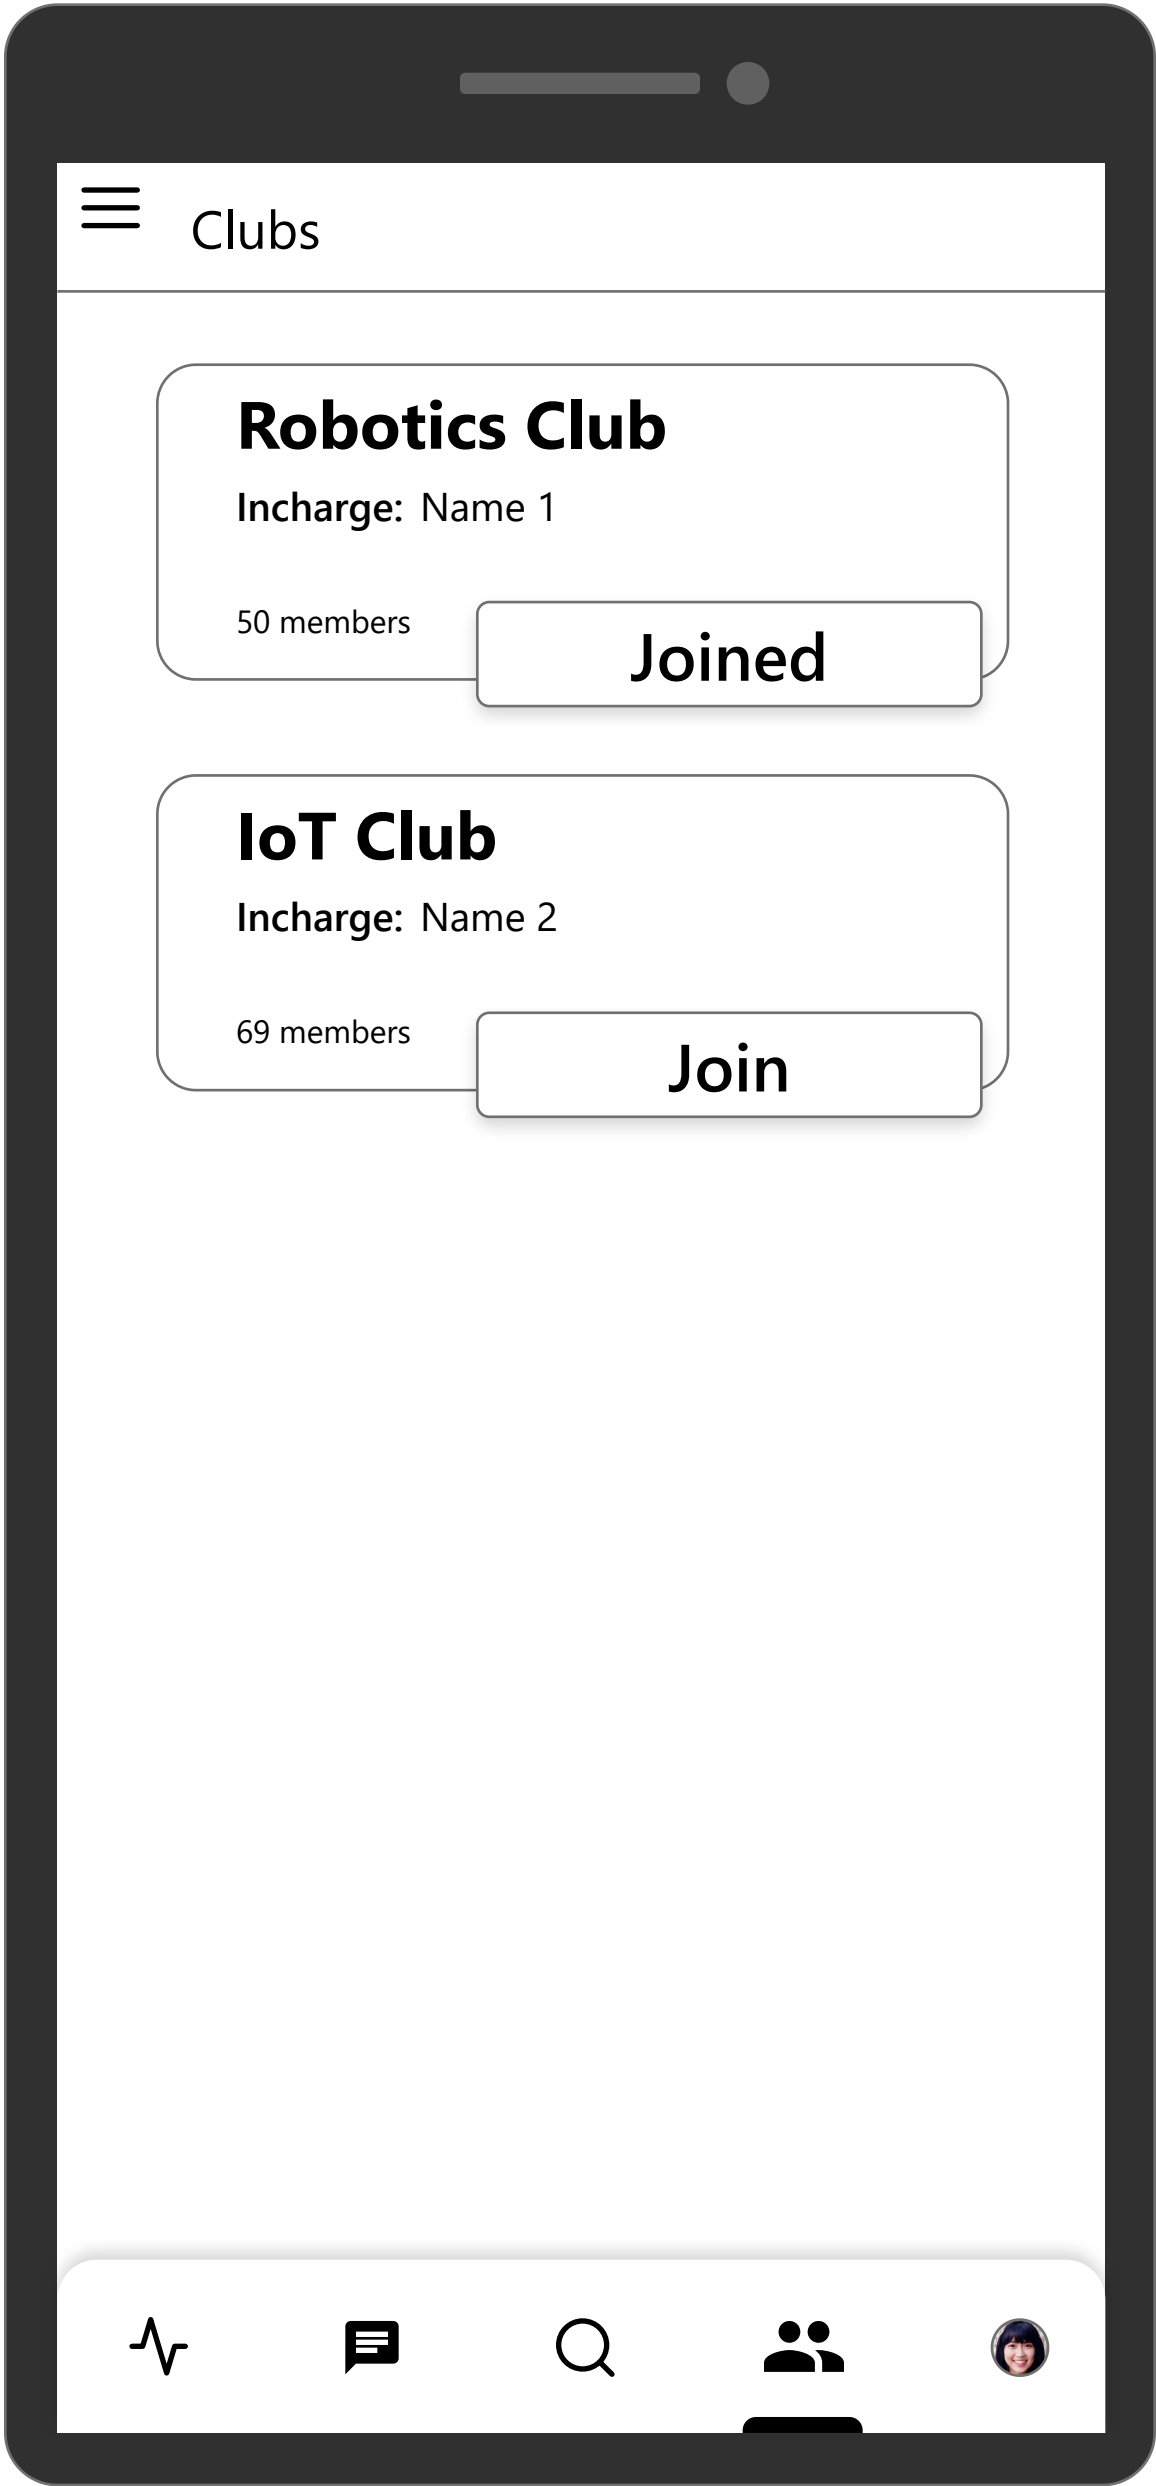

Material Edittext with custom background
